
Format CALL CLEARPRINT

Description

The CLEARPRINT command is just like the CLEAR command, but it clears columns 3 to 28 that is the PRINT or DISPLAY area leaving columns 1 and 2 along with columns 31 and 32 as are. Use CLEARPRINT to take the place of CALL HCHAR loops. CLEARPRINT runs from ROM.

Programs

Shows what CLEARPRINT does	CALL CLEARPRINT
Set loop chars 30 to 159	>100 FOR X=30 to 159
Show characters on screen.	>110 CALL HCHAR(1,1,X,768)
Clear columns 3 to 28	>120 CALL CLEARPRINT
Delay loop	>130 FOR Y=1 TO 200::NEXT Y
Next character	>140 NEXT X
Loop forever	>150 GOTO 100
