

Format

CALL ROLLUP

CALL ROLLUP(repetition)

Description

ROLLUP scrolls screen to the up so repetition will repeat the scroll number of times to up.
Repetition can be 1 to 256 max. ROLLUP runs from ROM.

Programs

Roll screen up 2 times	>CALL ROLLUP(2)
Prints line	>100 PRINT "SCREEN PRINT"
Roll screen UP	>110 CALL ROLLUP
Repeat the program	>120 GOTO 110
Load X\$ string variable	>100 X\$=" SCROLL UP"
Print X\$	>110 PRINT X\$
Roll up 9 times use X\$	>120 CALL ROLLUP(9)
Repeat the program	>130 GOTO 100

Options

New features allow for some special that can take the place of some routines that are slower in XB.
